Gentlemen, - I have had in my possession for over 60 years an 1844 U.S. Silver Dollar, Philadelphia minted, upon which, if you are still doing business, I would be pleased to have your opinion, or receive a bid.

This coin is but slightly worn. I should say very fine condition. The oddity of the coin consists of a change, accidental I believe in minting, in the inscription on the shield. The usual inscription is "LIBERTY" inscription on Shield in this coin is "LIDERTY". The "I" stands out in bold relief.

I have had some dealings with you near the close of the past century but am not quite certain of your address.

Awaiting your pleasure, I am,

Very truly yours

J. Harry Eisenhower
